September 13, 2017

TO: Members  
Wisconsin Legislature

FROM: Bob Lang, Director

SUBJECT: Non-Fiscal Policy Items Contained Within the 2017-19 Budget of the Joint Committee on Finance

At the request of numerous legislators, the attached list identifies the non-fiscal policy items that are contained in the Joint Finance Committee's version of the 2017-19 budget. The list is comprised of items that are primarily of a non-fiscal policy nature and not closely related to the state's fiscal programs for the next biennium.

Putting such a list together always requires some subjective judgment on which items should be identified. Arguments could be made to expand the list beyond what is presented here or to delete some items from it. However, in preparing the attached list, this office applied the same criteria that it has used in previous biennia when identifying provisions of the executive budget bill as non-fiscal policy items.

The criteria used are as follows: (1) generally, the item has no state fiscal effect; (2) if there is a state fiscal effect associated with an item, the policy implications of the provision outweigh any potential fiscal effect; (3) the item has been, or is, the subject of separate, non-budget legislation; (4) the item is one that typically would be reviewed by a standing committee of the Legislature; and (5) the provision could be accomplished without statutory directive. Items that typically are not included on the list are those that: (1) affect state program eligibility; (2) would generally be referred to the Joint Committee on Finance if introduced as separate legislation; and (3) address a reorganization or transfer of state government operations or functions.

Included are the page and item number showing where the provisions are described in the Legislative Fiscal Bureau's September, 2017, "Comparative Summary of Budget Recommendations of the Governor and Joint Committee on Finance."
