RE: 2022 - 2023 Redbook Budget Load to Accounting

The 2022-2023 (FY23) Final Redbook was loaded to the Shared Financial System (SFS) on 7/27/22. The budget load was processed with Journal ID PUW23003, with a date of 7/2/22, under Scenario Code REDBOOK, and is now viewable in WISER.

As has been done in the past, department level budgets and project numbers for funds 133, 135, 142, 143, 144, 145, 146, 148, 161, and 233 were loaded to A98 and not to the individual departments. Department level budgets and project numbers for fund 150 were also loaded to A98 except for the Division of Facilities Planning and Management. Fund 150 budgets will be established through the 2022-23 Fund 150 capital exercise.

If you see any issues, have questions, or have other feedback please contact the Madison Budget Office.

CC: Rob Cramer, Vice Chancellor for Finance and Administration  
David Murphy, Associate Vice Chancellor  
David Honma, Controller
